

DareDoll Puss Is a Real Doll!

PO Box 2901
South Bend, IN 46680
dynahunk@dyna-flix.com

DareDoll Puss climbs into the old, abandoned magic factory.
She speaks into her wristcomp.

PUSS

CrimeBase, this is DareDoll Puss.
I've just broken into the old,
abandoned magic factory, and am
about to conduct a routine patrol
in search of any evil-doing.

CRIMEBASE

Sure, sure, Puss. You do that. And
don't get trapped, tied and
tortured if you can help it.

PUSS

Roger that, CrimeBase.
(to the camera)
Was that sarcasm? I don't want to know.

She walks the maze. Eventually, villains appear from out of
nowhere and press her up against a sticky wall.

VILLAIN

Surprise, Puss!

Puss is speechless.

VILLAIN

What's the matter? Stuck for an
answer, or just hard-pressed?

They continue to press her body into the wall, then gas her
unconscious. Her head droops forward, though her body is
still held fast.

VILLAIN

We'd better see how much knows. I
mean, that can't be much, but if we
could just get her to cough up that
DareDoll activation code...you know
what I mean?

We cut to the water torture; freezing-cold drops of water
drip into her cleavage. But she won't talk!

VILLAIN

I'm sure you're familiar with the
time-honored Chinese Water Torture,
but you have to admit, we've found
a novel twist to make it seem new
again.

PUSS

You fiend! This water is ice-cold.

VILLAIN

If that were true, it would be ice instead of water, DareDoll.

PUSS

Perhaps, but that thought warms me not at all.

VILLAIN

Too bad, baby! Because we're planning to loosen your tongue at the same time that we stiffen your nipples. If you don't go mad first, surely you'll reveal the DareDoll activation code....

PUSS

Never!

VILLAIN

You know, I can't tell you how tired I am of hearing that word.

Time-lapse dissolves indicate that their torture is unrelenting and prolonged, but ineffective.

VILLAIN

This is no use. You just won't talk! But you're still a real doll in our book, Puss!

PUSS

I smell some not-so-subtle innuendo.

VILLAIN

Correct for once, Puss. And now, here comes the transition!

The usual spin-blur transition takes us to the next trap....

Puss is placed on a turntable and wrapped tightly in cellophane. The clear plastic clings to her body, highlighting her delightful curves. We next find her being fed by conveyor into a box.

VILLAIN

Just in time for Christmas, we're about to roll out the all-new fully pose-able Puss doll. I'm guessing it will be more popular with adults than kids, but Christmas is for everybody, right?

PUSS

Do you really expect me to believe that you're going to transform me into my very own action figure? Some statements lack credulity, you creepy crud!

VILLAIN

This is a magic factory, after all....

Puss is sucked into the box head-first, twitching all the while.

She seemingly slides out the other end as a neatly packaged (half-size) Puss doll. The villains chortle.

VILLAIN

(carting off the doll)

What'd'ya say we stick a few pins in this?

They exit. With the villains gone, Puss slides back out and struggles free, then immediately signals CrimeBase with her wristcomp.

PUSS

CrimeBase, it's me again. Rumors of my having been magically transformed into a plastic doll are just that.

CRIMEBASE

Roger that, Puss. Good thing you preemptively placed that Puss doll in their nefarious device last week, in anticipation of their eventual deployment of said device.

PUSS

You said it, CrimeBase! Over and out!

Suddenly she realizes that the villains have returned.

VILLAIN

Silly Puss! Did you really think that we would fall for your anti-trick trick? Now here's a fresh trick for a fresh chick!

The villains hypnotize her with a small, brightly lit whirligig of a device.

VILLAIN

You will now dance the dance of the DareDoll Polka, Puss. And do it sensuously!

As the villains clap along, she dances for their pleasure! Can she ever regain her senses or will she become their brainless human toy?
